

Specification

Supplement Light	
Power Supply	AC100~230V Dimensions
Wave Length	≥850 nm(Infrared)
Effective distance	18m to 25m
IR light transmittance	60-70%
Coverage	Single lane
Flash energy (J)	Max. 200 J
Operating Temperature	-25~+ 70 °C
Operating Humidity	20%~90%, no condensation
Trigger Manner	TTL level and switch trigger
Service Life	≥10 Million times
Syncspeed	<1/1000s
Time of Duration	800 us
Response Time	Max. 65ms
Rated current of Fuse	<3.0A
Other Functions	Strobe Interval Protect
Ingress protection	IP65
Dimension	520×242×236mm
Weight	4.5Kg
